

Report date: 2026-05-25 00:55:59

Frameworks scanned: WorkloadScan (compliance score: 68.04), AllControls (compliance score: 82.92)

Severity	Control reference	Control name	Failed resources	All resources	Compliance score
Critical	C-0090	CVE-2022-39328-grafana-auth-bypass	0	1	100%
High	C-0012	Applications credentials in configuration files	1	11	91%
High	C-0015	List Kubernetes secrets	0	0	100%
High	C-0038	Host PID/IPC privileges	0	7	100%
High	C-0041	HostNetwork access	0	7	100%
High	C-0045	Writable hostPath mount	0	7	100%
High	C-0046	Insecure capabilities	0	7	100%
High	C-0048	HostPath mount	0	7	100%
High	C-0057	Privileged container	0	7	100%
High	C-0059	CVE-2021-25742-nginx-ingress-snippet-annotation-vulnerability	0	0	100%
High	C-0091	CVE-2022-47633-kyverno-signature-bypass	0	0	100%
High	C-0262	Anonymous access enabled	0	0	100%
High	C-0270	Ensure CPU limits are set	3	7	57%
High	C-0271	Ensure memory limits are set	3	7	57%
Medium	C-0002	Prevent containers from allowing command execution	0	0	100%
Medium	C-0007	Roles with delete capabilities	0	0	100%
Medium	C-0013	Non-root containers	7	7	0%
Medium	C-0016	Allow privilege escalation	7	7	0%
Medium	C-0020	Mount service principal	0	7	100%
Medium	C-0030	Ingress and Egress blocked	2	12	83%
Medium	C-0031	Delete Kubernetes events	0	0	100%
Medium	C-0034	Automatic mapping of service account	0	7	100%
Medium	C-0035	Administrative Roles	0	0	100%
Medium	C-0044	Container hostPort	0	7	100%
Medium	C-0053	Access container service account	0	0	100%
Medium	C-0054	Cluster internal networking	0	1	100%
Medium	C-0055	Linux hardening	7	7	0%
Medium	C-0056	Configured liveness probe	0	7	100%
Medium	C-0062	Sudo in container entrypoint	0	7	100%
Medium	C-0063	Portforwarding privileges	0	0	100%
Medium	C-0065	No impersonation	0	0	100%
Medium	C-0074	Container runtime socket mounted	0	7	100%
Medium	C-0078	Images from allowed registry	0	7	Action Required †
Medium	C-0081	CVE-2022-24348-argocd-dirtraversal	0	0	100%
Medium	C-0207	Prefer using secrets as files over secrets as environment variables	0	7	100%
Medium	C-0257	Workload with PVC access	0	11	100%
Medium	C-0260	Missing network policy	2	16	88%
Low	C-0014	Access Kubernetes dashboard	0	7	100%
Low	C-0017	Immutable container filesystem	7	7	0%
Low	C-0018	Configured readiness probe	0	7	100%
Low	C-0042	SSH server running inside container	0	7	100%
Low	C-0049	Network mapping	0	1	100%
Low	C-0061	Pods in default namespace	0	7	100%
Low	C-0068	PSP enabled	0	0	100%
Low	C-0073	Naked pods	0	0	100%
Low	C-0075	Image pull policy on latest tag	4	7	43%
Low	C-0076	Label usage for resources	0	7	100%
Low	C-0077	K8s common labels usage	7	7	0%

Resource summary 7 24 83.73%
